

Computing Lecturer Job Description

We have an opportunity within our computing team due to continued growth and we welcome applications from qualified teachers and industry experts looking to move into teaching. The team will guide and support you to inspire and teach our T Level and BTEC students on levels 1-5.

Skills and Experience

As a lecturer of computing, you will assist in the delivery of Adult part-time ICT modules and Vocational provision using Java, Python and Visual Studio. Other area includes Mobile Application & Games Development, Animation and Graphics. Our experienced and dedicated specialists offer a range of courses including:

- BTEC extended diploma in IT
- BTEC extended certificate in Creative Technology
- T Level in Digital production design and development
- BTEC Higher Nationals

You will work within the Computing and ICT team on all aspects relating to student learning, teaching, tutoring, staffing and other pastoral, assessment and curriculum development.
